EUREKA is a pan-European initiative created to strengthen industrial competitiveness. Public and private sector partners submit collaborative R&D projects in technologies and in partnerships of their choice, to develop products, processes or services to be commercialised.

Find out more at > www.eurekanetwork.org/success-stories
At the heart of EUREKA are transnational collaborative R&D projects. The final result of your EUREKA project must be a commercially viable new product, process or service developed through a cooperation between organisations from at least two different EUREKA countries. Your project must have a civilian purpose.

EUREKA IS A NETWORK
EUREKA national project coordinators (NPC) in 40+ countries are dedicated to supporting transnational collaborative projects at a local level. They guide and fund the applicants for EUREKA support. An NPC is the first point of contact for an organisation wishing to expand its activities internationally.

GO INTERNATIONAL
EUREKA NETWORK PROJECTS
EUREKA’s most flexible instrument. Applications can be submitted all year long. Designed for R&D-intensive SMEs.
Open to any type of organisation and technology. Two annual cut-off deadlines for project applications.
Tap into national innovation support programmes in 40+ countries.

BUSINESS KNOWS BEST
You decide how to get your innovation to market. EUREKA is committed to its ‘bottom-up’ principle, ensuring that any R&D project with a good business plan receives the support it deserves, independent of the technology or the type of organisation involved.
