**Funding conditions and national funding budgets**

Funding will only be provided to projects that are positively evaluated by all relevant participating NFBs. Funding of project partners is subjected to budgetary availability and national funding conditions stipulated by each NFB.

A Consortium Agreement (CA) shall be signed between the project partners covering the execution of the project, the ownership and use of IPR arising from its activities, and the commercialisation of the project’s results. It shall follow the relevant laws of the countries participating in the project.

Unless otherwise specified by all NFBs in support of a given project, a signed CA is mandatory before the actual start of the project. See section “Funding conditions and rules per NFB” below for exceptions. The CA should at least include the ownership and use of know-how and IPR settlements.

The NFBs named below will provide access to public investment for the selected projects. The support will be given to each partner by its respective NFB in accordance with their national laws, rules, regulations and procedures in effect, on a non-exchange of funds or soft loan basis, and subject to budgetary availability for each NFB.

### Austria

#### Specific national rules

Austrian applicants must apply to:

**General Program (Basisprogramm)**

[https://www.ffg.at/programm/basisprogramm](https://www.ffg.at/programm/basisprogramm)

- Thematically open and continuous application possible
- Unrestricted total call budget
- Regular call (not fast track)

Rules and procedures:

[https://www.ffg.at/sites/default/files/downloads/bpunternehmensprojektkombileitfaden_22082018_1.pdf](https://www.ffg.at/sites/default/files/downloads/bpunternehmensprojektkombileitfaden_22082018_1.pdf)

Guideline Eligible Costs:

[https://www.ffg.at/recht-finanzen/kostenleitfaden](https://www.ffg.at/recht-finanzen/kostenleitfaden)

**Update on 24 April:** The “Emergency Call zur Erforschung von COVID-19 im Zuge des Ausbruchs von Sars CoV 2” is not available for Eureka applications any more.

#### Eligible costs and funding rates

All companies registered in Austria are eligible for funding. Universities and research centres can be funded as subcontractors only. In addition to the Eureka project form the Austrian participant has to submit a separate national full proposal to the “General Program (Basisprogramm)” via eCall on the FFG webpage. The evaluation of the Austrian project part is carried out by internal experts. The project must fulfil the national criteria. Funding in Austria is provided on an annual basis only, therefore follow-on applications must be submitted for the max. duration of the project.

The funding provided by FFG are grants:

- max. 60% of the eligible costs for small companies,
- max. 50% of the eligible costs for medium-sized companies and
- max. 40% for large companies.

#### Additional documents required

- Full national “General Program (Basisprogramm)”-proposal

**Denmark**

**Specific national rules**
IFD funds projects with at least one Danish industrial partner. IFD can, however, in fund all types of partners, and encourage universities, research organisations, hospitals, organisations and large enterprises as well as SME’s to participate in the call.
IFD can fund from €50,000 to €300,000 to Danish partners in a project. If the Danish part of the project is identical to an already national funded Grand Solution Covid-19 project additional “bridge funding” of €50,000 can be accepted.
In international projects IFD only fund Danish organisations participating as partners or coordinators in the projects if their project activities take place in Denmark. Subcontracting to Danish or foreign organisations can to a limited extend take place if declared in the application or later approved by IFD.

**Canada**

**Specific national rules**
In order to be considered for NRC IRAP funding, the basic eligibility criteria are as follows. See [http://nrc.canada.ca](http://nrc.canada.ca), Support for technology innovation, Financial support (…)

- Be a small and medium-sized enterprise in Canada, incorporated and profit-oriented;
- Have 500 or fewer full-time equivalent employees; and
- Have the objective to grow and generate profits through development and commercialisation of innovative, technology-driven new or improved products, services, or processes in Canada.

Canadian participants must contact NRC IRAP before starting to fill a project proposal. See contacts below.
| Eligible costs and funding rates | Up to 50% of Total Project Cost which is calculated as Salaries (for eligible personnel and activities) + Overhead (55% of Salaries) + Contractor Costs, for eligible activities. Eligible Canadian SMEs may receive up to 50% reimbursement of eligible project costs up to a maximum total funding amount of $600,000. Funding details must be discussed with one of NRC IRAP Industrial Technology Advisors located across Canada. |
| Additional documents required | Once the EUREKA proposal under this call has been assessed by NRC IRAP: If it is selected the Canadian applicant will have to submit an NRC IRAP funding application. Complementary information may be required such as annual and interim financial statements. |

| Netherlands |
| Specific national rules | Proposed project applications should address life sciences and health topics. Projects must contribute to the Health and Care missions described in detail in the Knowledge and Innovation Agenda 2020-2023 of the Top Sector LSH. |
All companies and research organisations registered in the Netherlands are eligible for funding.

In addition to Eureka eligibility criteria, for the Netherlands public-private cooperation is a prerequisite. The international consortium should consist of at least one for-profit enterprise and at least one research organisation. Furthermore, the project and consortium must comply with the national funding rules (PPS-toeslag voor samenwerkingsprojecten).

In addition to the Eureka project form, the Dutch participants have to submit a national application form and annexes to Netherlands Enterprise Agency.

The Netherlands does not evaluate applications on a continuous basis (first-come-first-served), but evaluates and ranks all projects based on quality shortly after call deadline. After project evaluation and ranking advise by Netherlands Enterprise Agency, Health~Holland takes the final funding decision, funds and further manages the approved projects conform their procedures.

There is a dedicated budget for this call, € 500.000. With a maximum of € 100.000 per project. Available budget is allocated to the best ranked proposals. Dutch participants are funded by Health~Holland, in accordance with the national funding rules (PPS-toeslag voor samenwerkingsprojecten).
